DETAILED ACTION

EX. Amdt.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 8/26/04 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph A. Capraro, Jr. on 9/17/04.

The application has been amended as follows:

In the claims:

inserted claim 7 as appears below after claim 6.

Claim 7 (Original): The RF plasma generator of claim 1 wherein the adjusting the at least one of the frequency of the RF generator and the variable impedance component in the matching network increases the power in the plasma.

Allowable Subject Matter

Claims 1-9, 11-17, 32, 33, 35, 36 and 37 are allowed.

The following is an examiner's statement of reasons for allowance: an RF plasma generator including *a matching network comprising at least one variable impedance component providing an electrically controllable variable capacitance*, the matching network including a first port that is electromagnetically coupled to the output of an RF generator and a second port that is electromagnetically coupled a load.

Neither of the prior art of the record teaches or suggests a plasma processing apparatus including a variable impedance matching network wherein the matching network includes an variable capacitance which is electrically controllable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
